

Ficha técnica

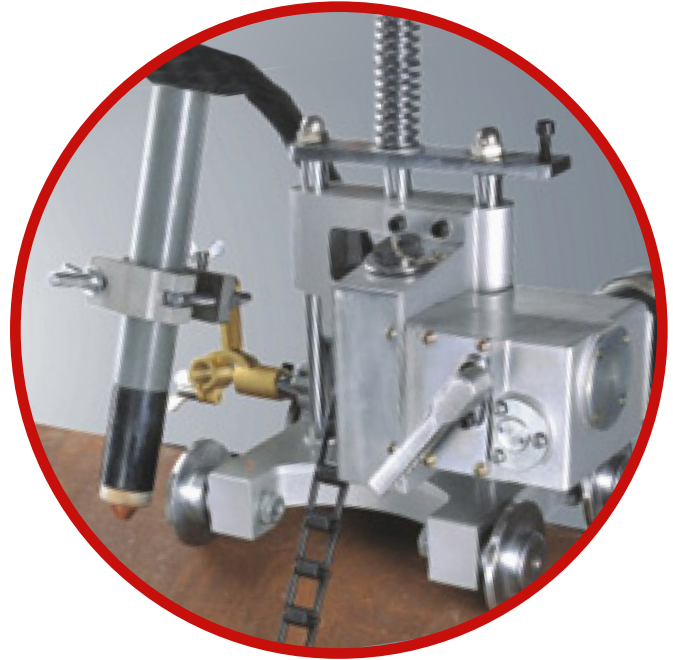

Description:

AUTOPIPE Kite Motorized pipe cutter (for flame cutting) / AUTOPIPEP (For plasma)

The machine is a remote control gas motorized pipe cutting machine based on Model lark design. It is a Lightweight, Portable yet Robust chain type Pipe Cutting Machine.

Features and benefits:

- Available in Hand Operated and Motorized versions.
- The machine can cut pipes of diameter 150 mm or more by quickly and easily changing the length of the chain.
- Cutting can be done in clockwise or anticlockwise direction from both sides of the machines.
- The machine can cut bevels of up to 45 by selecting the required angle on the torch holder.
- The machine torch can be adjusted vertically and horizontally alongside the pipe surface by rack and pinion attachments.
- The model PM45P machine can also be used to cut Stainless Steel and other NonFerrous pipes by using Plasma Cutting Torch.
- (Torch holder to suit your Plasma Cutting Torch can be supplied as an optional attachment).
- Remote Control Unit (1 set) supplied with the motorized version.

Technical Specification:

Chain type	Quick release clutch	Cutting speed	Effective pipe diameter	
Singlelink Chain	With	501150mm/min	150~600mm (6"~24") bystandard chain Larger size over 600mm by extra chain addition	
Cutting thickness	Cutting shape	Drive method	Main Size	Weight
up to 50mm (2")	Square and bevel (up to 45°)	Motorized	265*420*450	16kg

Place of Origin: China
