NXT-8SN

Portable Auto Welding Carriage

Description:

NXT-8SN This carriage can walk forward and backward for welding. This carriage is small in size and light in weight. It is easy to move and install under different conditions. This carriage adopts four-wheel drive and has high stability in walking. This carriage is adjusted to the automatic control state, and the welding starts. Reduce the number of operators, and one worker can operate multiple trolleys for welding at the same time.

Technical Specification:

Order No.	Model No	Draft load	LXWXH (mm)	Rang for adjusting torch			
				Up down	Left right	Work angle	Procecing angle
NXT1240	NXT-8SS	AC220-50	280x230x340	50mm	50mm	45°	±10°
NXT1241	NXT-8SS-A	AC220-50	280x230x340	50mm	50mm	45°	±10°
NXT1312	NXT-8SN	AC220-50	230x200x250	50mm	50mm	45°	±10°
NXT1313	NXT-8SNW	AC220-50	280x190x290	50mm	50mm	45°	±10°
NXT1318	NXT-8SNW-RC	AC220-50	280x190x290	50mm	50mm	45°	±10°

Model No	Wavering control				Speed (mm)	Method of driving	Weight (kg)
	Left/right pause time	Oscillating Motor	Wavering speed	Wavering angle			
NXT-8SS	/	/	/	/	50~900	Rubber wheel four-drive	7.6
NXT-8SS-A	/	/	/	/	50~900	Rubber wheel four-drive	8.8
NXT-8SN	/	/	/	/	50~900	Rubber wheel four-drive	5
NXT-8SNW	0~2.5s	Brushless motor	0~99	±15°	50~900	Rubber wheel four-drive	6.5
NXT-8SNW-RC	0~2.5s	Brushless motor	0~99	±15°	50~900	Rubber wheel four-drive	6.5
