

Ficha técnica

Arc Current	Pulse Frequency	Pilot Arc Current	Voltage	Power(W)	Dimensiones
200A - 3150 A	50 / 60Hz	160 A	AC 3 ~ 280V - 440V	100KW	Alto:890 mm Ancho:398 mm Largo:800 mm

Features:

- Condition: New
- Place of Origin: China (Mainland)
- Brand Name: Solid stud welding machine
- Rated Duty Cycle: 15%
- Usage: Welding M4-M36 Studs for shipbuilding, power plant, kiln, boiler etc
- Certification: CE
- Warranty: One years from the shipment date
- After-sales Service Provided: Engineers available to service machinery overseas Weight: 168KG
- Welding Range: M4mm-M36mm
- Welding Time: 0.1S-3.0S
- Welding Speed: M36 10PCS/minute
- Power Switch: 25A
- Protect Grade: Ip23
- Cooling Way: F
- Welding mode: drawn arc stud welding machine
- Technology: IGBT inverter drawn arc
- Metal welding machine: DA-3150 IGBT Solid stud welding machine

Place of Origin: China (Mainland)
